

Teacher Appreciation!

Thank you for all you give to your students.
Take time to renew and refresh yourself.

What is Reiki?

Reiki is the life force energy that flows through all living things. Reiki healing uses a beautiful energy of love and light aimed at bringing your body into balance and activating your body's healing ability, resulting in an overall feeling of relaxation and well-being. As a teacher, you give so much of yourself, it is important to renew your energy to remain physically healthy and emotionally recharged and positive.
